

**Found the  
app easy  
to  
navigate**

**Noticed that  
the app  
makes it  
convenient to  
connect with  
nearby farms.**

**Suggested  
improving the  
visibility of certain  
produce listings to  
avoid missing out.**

**Successfully  
added a new  
produce  
listing and  
found it easy  
to do so.**

**B. The user  
appreciated the  
preview or  
confirmation step to  
ensure the listing's  
accuracy before  
submitting.**

**Liked the feature  
allowing her to  
specify the type of  
produce, quantity,  
and pickup location.**

**C. The user is  
looking for features  
like message history  
or the ability to  
attach images if  
they want to send  
additional  
information.**

**Valued timely  
communication and  
reliable information  
on pickup details.**

**Found the  
messaging feature  
easy to use and  
efficient for  
business  
communication.**

**Suggested  
including  
options for  
customizing  
notification  
frequency.**

**Appreciated the  
flexibility in  
notification options,  
enhancing her  
community  
connection.**

**Configured the app  
to receive  
notifications about  
preferred produce  
listings.**

**E. They suggested  
additional features  
or improvements  
they'd like to see in  
the app based on  
their usage.**

**Left feedback  
for a produce  
listing and  
found the  
process easy.**

**Mentioned the  
convenience of  
tracking her  
livestock feed  
purchases through  
the app.**
